# CARBON FOOTPRINTING FOR THE FOOD INDUSTRY

## ***Course Summary***

A one-day workshop certificated by Verner Wheelock Associates.

With increasing pressure to become “carbon neutral” or to display a “Carbon Reduction Label” on their products, awareness of carbon foot printing is vital to every organisation in the food industry; this course helps organisations to monitor, measure and minimise their carbon footprint and improve their environmental performance.

## ***Entry Requirements***

There are no entry requirements but this one day introductory programme is aimed at people in food manufacturing and retail sectors who want to improve their understanding of carbon foot printing.

## ***Course Structure & Content***

This course will help you to start calculating and reducing your carbon footprint and achieve environmental improvements and cost savings. It is a highly interactive course covering the following topics:

- Introduction
- Background to Carbon foot printing
- Carbon footprint techniques
- How to calculate a carbon footprint
- Carbon footprint standards
- Pilot projects
- Reducing your carbon footprint
- Going carbon neutral

Information on carbon emissions from agriculture, transport, production and processing, energy and waste are included to help delegates calculate life cycle emissions.
