1) SMETA Resources:

https://sedex.sabacloud.com/Saba/Web_spf/EU5PIPRD021/common/ledetail/cours00000000021240

In this course you will find all relevant documents and guidance relating to the new SMETA audit methodology, to be launched in 2024. These documents are for reference purposes, to provide oversight of the new methodology and to facilitate learning and preparation for its launch. Until the official launch of the new methodology the existing guidance and documents relating to SMETA version 6.1 will remain the directive documents for the implementation of the SMETA standard.

Resources available:

- SMETA Standard Update for 2024
- Sedex FAQs on SMETA 7

2) The SMETA Audit Academy:

https://sedex.sabacloud.com/Saba/Web_spf/EU5PIPRD021/common/learningeventdetail/cura000000000004640

This curriculum for buyers offers essential insights into audit procedures, enhancing your ability to foster improved social and ethical practices within your organisation.

This curriculum includes 5 modules which are:

1. SMETA Basics
2. Workplace Requirements
3. Management Systems Assessment
4. Auditing in Practice
5. Reporting and Closing Meeting

3) SMETA Training Series:

https://sedex.sabacloud.com/Saba/Web_spf/EU5PIPRD021/common/learningeventdetail/currency0000000000004740

The latest SMETA methodology which will be launched later this year brings significant enhancements, ensuring a more robust assessment process. We encourage you to join these training sessions to learn more about the new SMETA methodology.

Resources available:

- Recording & slides – Session 1: Workplace Requirements & Collaborative Action Required
- Recording & slides – Session 2: Changes in the key audit data points and reporting
- Recording & slides – Session 3: Management Systems Assessment (MSA)
- Recording & slides – Session 4: Collaboration between buyers and suppliers, and continuous improvement of the supply chain
