

BRC Food Safety Issue 7 to 8 Conversion for Sites Course

Official BRC training course

Course Summary

This 1-day official **BRC Food Safety Issue 7 to 8 Conversion for Sites** course is delivered by Eleanor Nicholls, BRC Approved Training Partner (ATP).

The course will provide delegates with an in-depth understanding of the revisions to the **BRC's Global Standard for Food Safety** (August 2018) requirements for Issue 8. It is designed to equip delegates with the skills and knowledge to successfully implement the changes to the Standard on-site to prepare for their next audit.

This conversion course is suitable for site technical and quality managers and their teams or BRC Global Standards professionals. Ideally they will already be familiar with BRC Issue 7.

The main updates cover the following areas:

- Environmental Monitoring
- HACCP/ Food Safety Plan
- Product Security & Food Defence
- Product Labelling
- High Risk, High Care & Ambient High Care
- Traded Goods
- Audit Protocols

The changes are discussed section by section with plenty of time for discussion and input from the group. BRC Issue 8 was published in August 2018 and it is essential to start to revise your systems in preparation for your BRC audits from February 2019 onwards, when the new Standard comes into force.

Key Learning Objectives

- Understand the changes to existing requirements
- Understand what sites need to do to implement the requirements
- Recognise the changes to the protocol of the Standard
- Know what to expect from the Food Safety Issue 8 Audit

Assessment:

25 question examination. 60% pass mark.
